### Course Summary:

This course is designed for people who would like to improve their maths skills, covering topics such as addition, subtraction, multiplication, division; fractions, decimals, percentages; measurements, area, volume; ratio and scale; handling data and formulae. You have the chance to achieve a qualification up to level 2 (equivalent to GCSE grade A-C or now 9-4). The course is delivered in order to make maths relevant to everyday life and helps learners to progress in a chosen career or future employment or in order to access other educational opportunities.

### Eligibility:

Learners must be over 19 on the 1st August of the academic year they start their learning. Note: if not ordinarily resident in UK for 3 years (Please speak to a member of staff to confirm eligibility for funding).

### How will the course be taught?

Professionally delivered by a qualified tutor. You will have access to an online learning platform, and work towards an exam at your assessed level.

### How will I know how well I am doing?

You will follow your own individual learning plan with progress recorded by tutors and yourself.

### Prior Knowledge:

You will need to have basic maths skills. This is a course designed to help you brush up on skills you are not confident with or have forgotten since school.

### What do I need to bring?

All materials needed will be provided by the tutor.
